Deliberative Process, Enforcement Confidential

Hey Sabrina –

Per our conversation, I've attached a few documents for your reference.

1. Confidential Quickscore
2. Remedial Assessment Report by Jon Rauscher, R6, completed last summer.
3. AP 42 and Background Info for Primary Aluminum Production. This plant used the vertical Stud Soderberg process (there are multiple variants discussed in this document).

Let me know if you have any questions.

Thanks,  
Rob
